COAL AGE

With Which Is Consolidated
The "Colliery Engineer" and "Mines and Minerals"

INDEX TO VOLUME XXXV

January to December, 1930

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. Illustrated articles or cuts standing by themselves are indicated by an asterisk (*). The subject matter of editorials will be found classified under the subject with which they deal and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.

Following is a list of the pages included in each issue of the volume, together with date and number of the issue, for convenience of reference:

	Pages
January	1-72
February	73-138
March	137-200
April	201-264
May	265-340
June	341-400
July	401-456
August	457-512
September	513-570
October	571-652
November	653-704
December	705-756

A

	Page
Accidents	
Anthracite blasts kill seven	648
Canadian blast kills forty-five	500
Dangerous occurrences (e)	105
Deaths in 1929	127
Dorrance washery, E. Schweitzer	535
Fire traps three miners	692
Fatalities in coal mines, 72, 127, 184, 244, 250, 340, 397, 453, 507, 565, 652, 696, 748	
Gas explosions kill seven	176
Gas ignition kills seven	120
How to reduce them, M. E. Trammell	716
Oklahoma blast kills 59	67
Oklahoma blast kills thirty	692
Pennsylvania blast kills six	693
Reducing	77
Sunday Creek blast kills 79	690
Caused by broken trolley	744
Utah explosion kills fourteen	123
War against, W. W. Adams	26
West Virginia blast kills 8	124
What's wrong with water (e)	728
Accidents. See also Safety.	
Acids	
Sealing old workings prevents acid formation and saves pipes and streams, Leitch & Yant	78
Accounting	
Budget control advocated	692
Daily accounting assures positive cost control at Indianola, A. F. Brosky	459
Aerial tramway	
New weight position gives tram rope longer life	686
Alabama	
Clings to brawn, H. S. Geismar	40
Footprints found in mine, W. B. Jones	92
Pneumatic picks cut down fines in long-face work in Alabama Mines, J. H. Edwards	75
Slope of jig screens influences results	94
American Institute of Mining and Metallurgical Engineers	
Annual meeting	119
Anthracite section reorganizes at Hazleton meeting	247
Bockus addresses engineering group	178
Coal division holds first meeting	159
Coal division meeting	649
Ground Movement and Subsidence Committee meeting	162
James Douglas medal awarded to J. V. Dorr	119
American Mining Congress	
Manufacturers' Division to have convention (e)	234
Mechanization again in spotlight at Cincinnati convention	291
Meeting	711
Plans convention	67
Program of Cincinnati convention	121, 212
Among the manufacturers	113, 195, 261, 327, 385, 441, 493, 553
Annealing	
Best practice for tire turning	439
Anthracite	
Anthracite engineering, E. H. Suender	33
Blasting idea protects conveyor	54
Closer control of sand flotation system developed by hourly plant tests, J. F. McLaughlin	538
Correlate anthracite seams by their evidences of maceration, H. G. Turner	665
Experiments with research, R. V. Frost	12

	Page
German anthracite imported	693
In anthracite region, machines make low coal minable and water tunnels, feasible, R. D. Hall	207
Loses ground in Massachusetts	502
Mercury-arc rectifier makes bow in anthracite field, C. R. Seem	359
Modernization and the Reading Coal Co.	218
Outside of Pennsylvania, O. E. Kiessling	29
Shipments	174, 452, 504, 644, 693
Submerged pumproom solves drainage problem, I. A. Given	713
Wage parley opens	448
Wage agreement signed	499, 559
Anthracite Coal Service	
Laboratory opened	503
Ash	
What shall be done with ash? (e)	541

B

Bearings. See Machinery	
Belts	
Endless cord belt of new design	135
Metallic hinge pins for use with steel belt lacing	198
Repair to conveyor	114
Rollers on belt shifter stops wear	550
Static-proof	570
Used belting does well as trolley guard	115
Bit sharpener	255
Blasting	
Anthracite, idea protects conveyor	54
Approved list of permissible explosives reissued by U. S. Bureau of Mines	426
Borehole aids blasting and mucking in sinking airshaft through rock	438
Drilling and blasting expedited by special shot-firer cars	684
Explosives approved, 245, 392, 502, 562, 692	
"Gelamite" new explosive	400
Magazine removes hazard in handling detonators	636
Book reviews	107, 169, 237, 375, 431, 543, 631, 731
Bosses Talk It Over	
Dangerous practices—should a man's family be informed?	632
Dirty coal—no work	190
Foreman training—theoretical or practical?	256
Idle-day work—can it be made to pay?	432
Job analysis—key to man training	376
Labor turnover—how can it be minimized?	318
Machine maintenance—who is responsible for it?	484
Out of a job at 45	50
Pillar rides—how do you prevent them?	680
Safety inspectors—where do they fit in?	732
Training haulage extras to stabilize tonnage	108
Wage payment—by day, ton or bonus?	544
Brake skid	549
British Columbia group meets	560

C

Cable	
Safety lighting cable	754
Cambria Exposition	450
Cars	
All-purpose car stop	116
American Car & Foundry mine car	310
Automobile parts used to make electric car	736
Better and bigger cars needed in modern mines, G. A. Richardson	668
Bigger transportation units favored	300
Car turn as efficiency index (e)	676
High capacity claimed for mine car	704
Irwin mine car	309
Men can sit upright in this car	325
National Malleable & Steel Castings mine-car wheel	310
Stop blocks made better and cheaper in lathe	639
Ten years' service proves cast-steel wheels	382
Watt "Blue Boy" mine car	309
Cement, chromite	198
Census of Manufactures	
Suggest having coal consumption figures broken down into counties (e)	234
Chain drives	
How to make chain drives last longer	491
Chains	
"Promal" conveyor chain has great strength	508
Chamber of Commerce	
What's ahead for American business	335
Classification	
Coal classification, shall use or quality control? R. D. Hall	151
Cleaning. See Preparation.	
Coal industry, indicators of activity in, 128, 170, 238, 328, 386, 442, 494, 554, 640, 698, 750	

	Page
Coal Institute of St. Louis, formed	692
Coal Mining Institute meeting	70
Coal & Heating Industries	
Complete organization	446
Colorado	
Mechanization no mere word, C. M. Schloss	44
Western Colorado Coal Operators' Association formed	689
Colorado & New Mexico Coal Operators' Association adopts trade code	498
Committee of Ten	
Coal and Heating Committee outlines program	503
Compressed Air and Compressors	
Air-driven machines used in cutting in Pittsburgh seam mine, J. H. Edwards	475
Air pressure forces water to charging stalls	638
Anti-freeze system for air-tool use	454
Finds new applications (e)	541
New compressor units are self-contained	132
Pneumatic tools at Consolidation Coal Co.	593
Sand conveyed by air upgrade through 2-in. pipe	53
Single-stage compressor	197
Conveyors	
Ash conveyed by air	509
Backstop takes hold with slight reversal	322
Conveyor scale	755
Duckbill conveyors operate to advantage in drawlatch, R. L. Ireland	227
Economic life of mine prolonged by conveyors in thin coal, J. H. Edwards	142
Machine loading at Consolidation Coal Co.	581
Motor designed for conveyors	508
Pintle conveyor chain pin	199
Roller conveyor at Valer Mine	468
Screw conveyor drives are standardized	264
When, where, and how to use button conveyors, H. F. Geist	719
Cost accounting forms to be revised	336
Couplings	
Flexible	197
Flexible coupling refined	136
Cutting Machines	
Air-driven machines used for cutting in Pittsburgh seam mine, J. H. Edwards	475
Bar machines better than chain cutters, L. C. Stevens	165
Belgium cuts her steep seams by machinery, F. C. Cornet	81
Face methods at Consolidation Coal Co.	579
Machines can cut uphill as fast as on level, N. D. Levin	165
Redesigned die on bit-sharpening machine adds efficiency to cutting	55
Sullivan continuous coal cutter	307
Track-mounted machine removes blue band in Illinois mine, A. F. Brosky	87

D

Depletion by new income percentages should reduce taxation, M. W. Krieger	725
Doors	
Designs timing relay for door supervision	437
Free-swinging double door	549
Prevent air reversal if motor fan stops	550
Window in mine door is safety precaution	325
Drainage	
Conquering water leakage in mine development, S. E. DeBerry	415
Consolidation Coal Co.—drainage	611
Sealing old workings prevents acid formation and saves pipes and streams, Leitch and Yant	78
Submerged pumproom at William Penn Colliery, Ivan A. Given	713
Wanted: more research on acid mine drainage, L. V. Carpenter	406
Drainage board formed in West Virginia	390
Drills and Drilling	
Back to the wedge; but this one is power-driven, F. W. Whiteside	357
Chuck takes augers without shanks	323
Drilling and blasting expedited by special shot firer cars	684
How should holes be drilled for blasting?	325
Mounted electric drill said to be lighter	264
One-man electric coal drill is flameproof	399
Precautions necessary in drilling wells through coal mine workings	80
U. S. heavy-duty drill	264
Drive, V-type combines belts and sheaves	702
Duckbills. See Conveyors.	
Dumping	
Automatic gate lifter speeds dumping	54
Bar along top holds car in rotary dump	252
Bar releases brakes by bumping handles	383
Hinged rails allow use of horn dump in series	737
Rotary dump and car feeder	436
Watt-Allen & Garcia car and dump	309

Economics		Fans. See Ventilation.		Illinois—Cont'd.	
Apoggiatura (e)	370	Federal Trade Commission		New semi-loader enters mechanization picture	413
Architects of fortune (e)	628	Allows industries to approve code changes	451	Track-mounted machine removes blue band. A. F. Brosky	87
British merger proposed	452	Feeder		Illinois Mining Institute meetings	423, 693
Conference on the Bituminous Coal Industry	745	Guard for feeder	550	Illinois Society of Engineers	
Page Mr. Moses (e)	480	Regulates by weight	199	Stripping, problems and progress discussed	95
President suggests (e)	629	Financial reports	119, 180, 244, 337, 393, 697	Indiana	
Solid achievements of past year offer ground for further gains in 1930-program for 1930	6	Fire brattice is adjustable	702	Checkerboard system permits machine to load full trips. R. D. Hall	85
Spends over billion dollars in 1929	47	Fire-resistant cloth for brattice	703	Clinton mine averages 9½ tons per man. A. F. Brosky	215
Standardized depreciation rates not contemplated	749	Fire. See Accidents.		Indiana Coal Operators' Assn.—meeting	740
Unusual stability forecast for 1930. R. M. Davis	3	First Aid and Mine Rescue		Industrial engineering has definite place in coal mining. J. H. Pierce	145
Economics. See also Trade Practices.		August meet	564	Industrial relations at Consolidation Coal Co.	618
Economizer, fin-tube type	567	Contests held	501	Interstate Commerce Commission	
Education		Fifty-seven teams in international meet	645	Examiner rules out mines as transportation property	179
How metal trades train foremen	421	Meets held	447	Iowa	
Illinois Mining Institute will foster vocational training and research	693	Stretcher posts removed while not in use	636	Interests meet	560
Mineral industrial colleges. E. Steidle	35	Footprints found in Alabama mine. W. B. Jones	92	Mechanization waits on wages. Geo. Heaps, Jr.	45
Technical training (e)	481	Freight Rates			
To what end? (e)	167	Attack rates on coal to South Atlantic ports	332		
Training for the firing line (e)	105	Cash discount plan offered anthracite dealers	394	Kansas	
Electricity		Differential proposed for Kentucky coal. Eastbound rate hearing set	451	Engineering forethought features Kansas stripping. A. F. Brosky	524
A.C. motor starter	510	I.C.C. asked to dismiss lake cargo complaints	334	Kanwha Institute—meeting	746
Air pressure forces water to charging stalls	638	Illinois rates argued	558	Kentucky	
Asbestos used to insulate motor cables	133	Lake cargo case reopened by I.C.C.	392	Few modernize; others retrench. W. N. Cole	46
Automatic power releases guard against dangers from ventilation failures	488	Lake cargo hearings held	689	King Coal's Calendar. 69, 126, 182, 248, 338, 395, 451, 505, 563, 651, 695, 747	
Blowout-coil polarity affects controller	118	lake cargo case	447		
Commutator undercutter motor-driven	133	Northwest rates lowered	447		
Consolidation Coal Co.—electrification	600	Operators to ask reopening of lake rate case	122		
Control reverses small motors	570	Propose car distribution and demurrage rules	501		
Corona and ozone troubles stopped by insulation	755	Rebate given on Chicago anthracite rates	394		
Crane controller is self-contained	198	Westmoreland rates attacked	506		
Detachable watt-hour meter	199	Furnaces			
Diesel plant generates power for Price Hill. J. H. Edwards	654	Not what we have, but what we use (e)	429		
Distant manual control used on substation	116				
Dry-cell tester for use on No. 6 cells	400				
Electrical products offered	196				
Equipment for use and control of power	756				
Flashover of 20 kv. claimed for air-gap hanger	132				
Frequency converters	454				
Fuse wrench announced	569				
General Electric mercury-arc rectifier	313				
General Electric starting and running unit for automatic motor generator set	313				
Generator set with welded steel base	197				
Guide clamp stops breakage of conductors	135				
Hoist control interlocked with surface gates	737				
Long steel boxes simplify wiring to starters	324				
Lowering circuit controller for hoist use	197				
Mercury-arc rectifier makes bow in anthracite field. C. R. Seem	359				
Magnetic starter	569				
Master switch regulates control circuits	569				
Metal under-run section insulator	754				
Mine hanger	754				
New features in electrical and mechanical design at Wildwood. J. H. Edwards	279				
Open secondary lead saves \$100 per month	383				
Outside location improved motor performance	252				
Pennsylvania asks, is her electrical mining equipment safe? G. F. Newman	155				
Photo-electric cell with amplifier unit	510				
Plugs and receptacles for high frequency 133					
Portable substations meet demand for rapid-shifting load centers. F. P. Brightman	229				
Power cost reduced by dispatching	186				
Power-factor control exciter installed	704				
Power-factor problems solved graphically	185				
Relay provides light-load protection	200				
Remote control given by contact cable	567				
Safety switch	382				
Shunt device adds life to trolley wheels	511				
Slow-speed direct-connected motor installed on Grant Town fan	566				
Starting equipment	187				
Substation motor used on stand-by power unit	313				
Switchboard for Westinghouse automatic substation	324				
Synchronous equipment cuts power cost	685				
Test receptacles included on switch panels	511				
Three-section checks trace armature service	251				
Time switch electrically wound	322				
Timing contactor added to limiter circuit prevents unnecessary power interruptions	440				
Two-way signaling system at Wildwood	313				
Vibration recorder checks performance of gathering locomotive batteries					
Westinghouse combination line starter					
Electricity—Power and Equipment					
Confined heat injures battery cells	54				
Guards doors and air currents. H. S. Littlewood	89				
Engines					
Automobile engine serves as fan auxiliary	56				
Does work of mule in handling slate	57				
Entry versus heading (e)	316				
Explosives. See Blasting.

Locomotives—Cont'd.		Mine timbers—Cont'd.		Obituary—Cont'd.	
Need trained operatives on locomotives.	84	Systematic timbering safety theme at Rocky Mountain meeting.	368	Mahan, T. B.	746
Reel trouble corrected by adding ball bearings.	437	Timber treatment grows (e).	728	Moffitt, John H.	124
Transportation at Consolidation Coal Co.	585	U-bolt clip holds beam on wooden legs.	115	Moore, Walter	451
Transportation geared to high-speed production at Wildwood.	276	Usual methods make bad roof safe.	57	Morgan, Thomas P.	562
Valve eliminates sanding troubles.	738	What next? This is next (e).	316	Morris, Charles G.	396
Vibration recorder checks performance of gathering locomotive batteries.	440	Mine Tracks		Morris, R. W.	68
Watt motor bumper.	310	All-service chock block.	381	Munroe, John	336
Lubrication		Angle iron hinged to rail operates car position contactor.	635	Needham, Edward B.	695
Automatic slope-hoist cable oiler.	552	Automatic switch on rope haulage derails runaway cars.	253	Osborne, Abner W.	183
Lincoln electric lubricator.	315	Automatic switch thrower.	200	Prentiss, Edward L.	746
Oil channels cleaned by air ejector.	384	Bethlehem heavy-duty steel tie.	310	Quealy, P. J.	562
Wall lockers are efficient as oil dispensers.	637	Crossing a car parting under heavy cover.	188	Ramsden, George L.	651
M		Hinged rails allow use of horn dumps in series.	737	Randall, David V.	124
Machinery		Interchangeable right and left frogs.	380	Randle, Joseph	396
Automatic water quenching by bit sharpener attachment.	637	Machine saves labor in cleaning Penn Machine Co.—trolley frog and line section switch.	314	Ransford, W. V.	562
Ball bearing has felt seal.	568	Portable turnout can be laid right or left.	489	Robinson, W. L.	246
Bits hardened by conveyor passage through tank.	638	Rail sander.	456	Roderick, William J.	246
Grooves in bearing housing stop oil leakage.	738	Railroad vs. mine practice. J. F. McCrystle.	139	Rollo, George	396
Self-lubricating bearing made of bronze.	134	Switches safely blocked with tar product.	189	Rowe, Burton J.	746
Tailstock live center has ball bearings.	134	Systematization pays way in track maintenance. J. F. McCrystle.	409	Seger, John	124
Wire saws for coal mining?(e).	540	Transportation at Consolidation Coal Co.	585	Siler, T. E. B.	396
Maintenance		Transportation geared to high-speed production at Wildwood.	276	Spears, William G.	246
Consolidation Coal Co.	615	Watt Car & Wheel Co. automatic switch.	310	Staples, Harry O.	396
Expert opinion aids maintenance.	156	Watt power rail bender.	310	Tharp, Everett	396
Painting at Old Ben plants.	186	Mining Methods		Thorne, S. B.	746
Safe repairs (e).	629	Backfilling in Germany.	730	Trent, Harvey	695
Markets		Cutting a kerf in the mining of thin coal.	482	Watkins, William E.	746
Coal for mechanized home heating (e).	728	Early adoption of improved methods.	86	Trivette, Linton	746
Reviews.	58, 129, 171, 239, 329, 387, 443, 495, 555, 641, 699, 751	Face methods at Consolidation Coal Co.	579	White, E. E.	746
Management		Hammer picks used in Germany.	236	Williams, J. S.	746
Character control (e).	540	How danger of heating is averted in mining thick beds of Europe. J. Cooper.	417	Ohio	
Pit as a fiddle (e).	540	Island Creek equips all mines with mounted machines and drills. J. H. Edwards.	403	Duckbill conveyors. R. L. Ireland.	227
Industrial engineering has definite place in coal mining. J. H. Pierce.	145	Mine layout at Consolidation Coal Co. 94 tons per man is Clinton's daily average. A. F. Brosky.	215	Ohio Coal Exchange formed.	179
Management outlook at Nemaacolin.	203	Old year leaves mark on methods. R. D. Hall.	37	Operators' Assn' of the Williamson Field meeting.	746
No place for tyros (e).	167	Pneumatic picks cut down fines in long-face work. J. H. Edwards.	75	P	
Organization and management of Consolidation Coal Co.	572	Subsidence: intensive study of the behavior of pillars.	162	Packaged coal offered in Southwestern trade.	504
Taylor system. H. P. Kendall.	163	Mining Society of Nova Scotia meeting.	448	Packing said to "disrupt" in stuffing box.	702
Urges study of psychology by management. C. A. Ballet.	103	Motors. See Electricity		Paint airbrush.	510
Manometer, large-bore.	134	N		Painting	
Maryland		National Assn. of Purchasing Agents.	450	Has a place in mine modernization. T. J. Maloney.	521
Steel props and arches in Maryland. J. J. Rutledge.	41	Discuss buying with National Coal Assn.	450	Patents, recent	
To push its coal.	560	National Coal Assn.		194, 260, 320, 378, 434, 487, 547, 683, 735	
Western Maryland marketing to be investigated.	391	Bituminous coal industry forecast at annual operators convention.	663	Pennsylvania	
Mechanization		Bituminous industry co-ordinates applied forces at convention.	656	Anthraxite experiments with research—interview with R. V. Frost.	12
Again in spotlight at Cincinnati Convention.	291	Domestic stoker to front as merchandising aid.	673	Conquering water leakage in mine development. S. E. DeBerry.	415
Building personnel for mechanized mining. W. M. Dake.	351	Gandy resigns, Huntress succeeds him.	242	Correct draft gear design narrows hazards in mine haulage. C. E. Watts.	463
Co-ordinate men and machinery. P. C. Thomas.	211	Meets with heating men.	122	Daily accounting assures positive cost control at Indianola. A. F. Brosky.	459
Gains in thin seams.	295	Percentage depletion question.	449	Is her electrical mining equipment safe? G. P. Newman.	155
"I command" (e).	317	Propose car distribution and demurrage rules.	501	Management outlook at Nemaacolin.	203
In anthracite region, machines make low coal minable and water tunnels feasible. R. D. Hall.	207	Purchasing agents discuss coal buying.	450	Modernization in Western Pennsylvania. W. A. Weldin.	40
Machine considerations determine underground planning at Wildwood. A. F. Brosky.	271	Standard depreciation rates cause protest.	446	Multiple shifts win favor in central Pennsylvania. H. H. Hasler.	42
Needed for stabilizing employment.	711	Value received (e).	105	Pensions	
Plugging the leaks in supply costs. V. B. Stith.	722	National Exposition of Mining Equipment.	306	Personnel problems challenge industrial thinking.	100
Progress still spotty.	23	National Retail Coal Merchants Assn.	392	Personal Mention	
Track-mounted machine removes blue band. A. F. Brosky.	87	Summer sales campaign.	392	Anderson, Geo. J.	182
Underestimating the handicap (e).	104	National Safety Council.	334	Barr, R. E.	451
Where 100% mechanization rules.	299	Codifies state safety laws.	628	Bird, Byron M.	505
Why Wildwood? C. F. Hosford, jr.	267	Concurrent causes (e).	646	Blakslie, S. W.	651
Merchandising		Meeting.	646	Bourland, C. R.	246
Chicago sales stimulated by surety plan.	392	North Dakota.		Brandon, Milton	505
Children of darkness (e).	167	Lignite output concentrated. R. L. Sutherland.	45	Burns, J. B.	124
Consolidation Coal Co.	625	Notes from across the sea. 106, 168, 236, 374, 430, 482, 542, 630, 678, 730		Caldwell, Fred C.	395
Five companies consolidate sales departments.	178	O		Campbell, Geo. F.	182
Mechanize your market (e).	428	Obituary		Cobb, J. A.	562
No man's land (e).	428	Ashworth, James.	503	Cochran, Ira C.	451
"Old-fashioned" (e).	541	Barnes, John.	503	Collins, John L.	124
Sale of burning equipment by coal dealers.	125	Bergendahl, C. E.	746	Crawford, Geo. Gordon.	124
Scientific merchandising need of coal industry. E. Woodson.	103	Berry, H. B.	651	Cunningham, W. H.	747
They sold more cars (e).	729	Bissell, Benjamin.	183	Davis, Ben.	451
Midwest bituminous coal conference. At Purdue.	333	Bissell, H. E.	183	Doolittle, W. L.	651
Widening ripple (e).	317	Clinch, Geo. O.	746	Drennen, Everett.	505
Mergers. See Economics		Clinch, R. Floyd.	746	Edmiston, Robert J.	505
Metering "dustless" liquid affords check data.	738	Collier, James H.	746	Edwards, J. H.	562
Mine cars. See Cars		Davidson, William J.	746	English, T. W.	68
Mine chiefs Assn., officers elected.	334	Dow, Dr. Herbert H.	246	Enzian, Charles.	747
Mine doors. See Doors		Evans, Josiah T.	746	Estill, R. R.	395
Mine foremen		Faust, L. H.	503	Galloway, Robert E.	336
Does age disqualify a mine foreman? A. H. Stansberry.	103	Goldsborough, C. S.	747	Gandy, Harry L.	395
How metal trades main foremen.	421	Guthrie, T. W.	396	Garcia, John A.	651
Mine blackboards dubbed "assistant foremen".	736	Hargrove, Geo.	183	Garvey, M. L.	651
Mine inspectors Institute meeting.	365	Hatfield, Roy A.	183	Gibbons, C. A.	651
Mine timbers		Hemelwright, Frank H.	183	Grumm, Charles F.	451
After coal, what?—Clearfield Co. says "timber" and plants trees.	659	Herrold, Herbert J.	695	Hamby, J. P.	68

S

Safety	
Achievements rewarded	244
Are safety records real or synthetic? asks Illinois Inst.	423
Automatic power releases guard against dangers from ventilation failures	*488
Banquets held to celebrate third year of safe operation	174
Consolidation Coal Co.—safety	694
Cylindrical first-aid kit	*263
Drill gas escape holes to make jack pipes explosion proof	*687
Equipment reduces injuries	*314
Full-size coal face built on wall near office	491
Guarded fleetways make mines safer	*325
Hat protective, for mine use	*511
Helpful dust, is there such a thing?	157
Hoist control interlocked with surface gates	*737
How to achieve safety records	304
International safety meet goes to Louisville	334
Lighting cable	754
Lights at switch avert accidents	*56
Mine inspectors discuss safety problems	365
Notes from across the sea	106
Once generated power; now generates interest	188
Our menacing returns (e)	728
Pennsylvania asks, is her electrical mining equipment safe? G. F. Newman	155
Pittsburgh Coal Co.'s rules for cutters	71
Portable first-aid station	*323
Portable safety board	*436
Precautions necessary in drilling wells through coal mine workings	80
Premier Coal Co. receives award	742
Real or synthetic? (e)	429
Return airways filled with gas (e)	728
Rock-dust veils (e)	676
Saw guard combines safety and facility	*639
Signboard locating danger	*739
Systematic timbering safety theme at "Rocky Mountain meeting"	368
"There ought to be a law" (e)	166
Underground office for safety engineer	*118
What's wrong with water (e)	728
Scientist—we reap what we sow (e)	235
Scraper loaders	
Machine loading at Consolidation Coal Co.	*581
Screens. See Preparation	
Selling. See Merchandising	
Sherman Act—neither dead nor sleeping (e)	235
Shovel, crawler-mounted	*754
Sizing. See Preparation	
Slogans—prizes awarded	243
Smokeless Coal Operators Assn.—election	66
Southern Appalachian Efficiency Assn.	
Budgeting enables mine management to chart future progress	245
Meeting	742
Southern Wyoming Coal Operators Assn.	
Election meeting	451
Speed reducers	
Anti-friction speed reducer	512
Right angle drive-speed reducer	*108
Spoil reclamation (e)	234
Standardization	
Coal classification system offered	246
Island Creek equips all mines with mounted machines and drills. J. H. Edwards	*403
Stokers	
Automatic stokers	*160
Domestic stoker to front as merchandising aid	673
Surveys	
Perch-foot conversion table saves time in title work	686
Stripping	
Engineering forethought features Kansas stripping. A. F. Brosky	*524
Midland stripping mines 33-in. coal under 25-ft. cover. K. R. Bixby	*477
Problems and progress	95

Stripping—Cont'd.	
Subsidence. See Mining Methods	
Substations. See Electricity	
Sulphur in coal (e)	234
Supplies	
Plugging the leaks in supply costs. V. B. Stith	*722
Psychological control of inventory	*188

T

Tariff	
Anthracite proposed	245
On Canadian coals to be restored	119
Senate defeats oil tariff	247
Taxes	
Attitude of tax board still undefined	695
Depletion by new income percentages should induce taxation. M. W. Krieger	725
Marsh Fork decision. E. L. Bailey	539
Percentage depletion advocated	693
Telephone	
Underground phones at Consolidation Coal Co.	*592
Telephone typewriter centralizes control	727
Templet for making profiles	*509
Threader—heavy-duty with automatic die-head	*566
Tire turning	
Annealing, best practice for tire turning	*439
Turning of tires without annealing	*185
Tires	
High carbon strips gives satisfaction as welded tread fillers	*548
Tools	
Grooving tool said to cut perfect circle	*263
Topworks construction active in 1929	48
Tracks. See Mine Tracks	
Trade literature	52, 113, 194, 260, 327, 379, 435, 493, 553, 735
Trade Practices	
Code adopted by dock operators	67
Colorado and New Mexico adopt code	246
Experience proves benefits. R. E. Howe	16
Fair practice code approved by Federal Trade Commission	123
Fair trade practice codes open door to stabilization. E. C. Mahan	14
Federal Trade allows industries to approve code changes	451
Herald's dawn of stabilization. J. L. Davidson	18
Indiana ready to try. R. H. Sherwood	16
Kansas and Missouri operators adopt code	741
Means real self-government. O. J. Grimes	17
Success invites extension. E. R. Clayton	17
Trolley circuit code proposed	93
Trolley guard	
Used belting does well as trolley guard	*115
Trolleys	
Adapter and suspension hanger	*400
Frog for heavy wire	*196
Mine harp	*754
Trucks	
Federal truck with capacity of 1 to 14 tons	*569
Lift truck	*263
Relay motor truck	*455
Six-cylinder for fast delivery	*200
Truck serves as hoist in shaft sinking	*688
Turning of tires without annealing	*185

BOSSSES TALK IT OVER—LETTERS

	Page		Page		Page
A ESOP, JR. Fable of the extra crew....	260	H ALL, F. J. Flat wage will never succeed	634	Mitchell, R. C. Employees on the extra list must all be good workmen...	191
Allan, A. A. Train a capable understudy for that dangerous haul.....	192	Surprising results obtained by daily analysis of job	321	Perhaps the electrician is at fault; who knows?	683
Atkinson, James H. Men will resent reprimands made behind their backs	735	Hall, Peter. Go in and get the pillars when a creep starts trouble	733	Retain the man of forty-five; he has reached the heights	110
B ARTLETT, R. A. Compensation law needs fixing	194	Hall, S. J. Cleaning-plant installation will settle clean-coal question	259	Montgomery, C. E. Complaints are justified if they will insure safety.....	681
Train reserves from mine force to man haulage locomotives	260	Cut down your production when good men are scarce	379	Day work is best done on idle shifts sometimes	486
Use one mine foreman only to fix full responsibility	51	Necessity for extra work shows poor management	485	How to stop the pillar ride becomes a serious question	733
Bennett, Alexander. Competition for haul jobs spurs man to do his best....	192	Urges plan despite objections.....	682	If age limit is established, youth will not mine coal	194
Dirty coal a persistent evil.....	257	Hand, William. Extra deadwork assignments are more or less a habit..	486	Pity the poor inspector	321
Enlightened action will relieve hardships of the older worker.....	110	Is Shorty a capable man? If so, give him authority	546	Moorhead, William. Job analysis means much to management and men..	319
Exit the mine foreman: Enter the electrical chief	547	Heller, S. C. Examples show the true value of the mine worker over 45	110	N EUMAN, FREDERICK. Clean product is a matter of disciplining the miner	321
Modified bonus plan will stimulate endeavor	633	Hornsby, Walter. Age is not a barrier....	112	Employ only steady workers for the job of motorman	191
Plan is practicable, but.....	682	Bonus is only a bribe.....	634	Keeping older man depends on ability to do the work.....	112
Study of robbing operation must be constantly made	734	Management, not the men, responsible for labor turnover	378	Nichols, F. O. Be systematic at all times and have no pillar troubles.....	735
Theory must come first.....	320	Pillaring cannot be guided from blueprints in office	733	O TEY, W. B. Give the older man a chance	112
Bohn, John. As man to man	735	When the foreman is between the devil and the deep sea.....	486	P ROKES, ALTGELD. Shorty should instruct men and not order them about	547
Bowen, Gordon. All at once — nothing first	546	J A. D. Specialization of mining jobs may lower worker efficiency....	433	R AY, J. A. Give the chief authority; you give him the blame.....	547
Bullock, Ostel. Budgeting urged as aid in keeping down labor cost.....	485	J. A. R. Why not apply some system to hand-loading methods?	319	Reynolds, Sim C. Noble experiment.....	681
Buss, W. E. Seeks method to combine best features of three plans.....	683	James, Thomas. Bonus system given preference	633	Ruffini, A. J. Leave time for repairs....	51
C HIRE, JOHN J. Good cleaning plant necessary	257	Competitive conditions operate to force adoption of age limit.....	111	S CHULL, ERNEST. Older worker is trail blazer	111
Hail to the cheerful boss.....	377	Let records tell the story.....	545	Stansberry, A. H. Older men insure safety	260
Poor track and equipment may slow up sub motorman	191	Jones, C. R. Cast-offs can't find new jobs	112	Stevens, R. G. Systematic training of extras makes haulage most efficient	250
What else can be expected?	734	Jones, John. Mine workers are attracted to a stable organization.....	433	Wisdom increases with age.....	112
Cosgrove, J. A. Practice line promotion in filling motorman vacancies	193	Jones, Samuel A. Men accomplish only that for which they are paid.....	634	Stidham, J. M. Brains vs. old age.....	193
Crawford, J. T. Men of experience needed for smooth mine operation.....	193	L EWIS, CHARLES J. Reprimand careless runner in electrician's presence	545	T HOMAS, A. E. Loading inspectors insure removal of machine cuttings	258
D AUGHERTY, ADRIAN K. Mother made a mistake	682	Lightburn, R. W. Coal inspector must use an iron fist gloved in velvet	433	Why employ mine foreman unless a finished product?	378
They said it couldn't be done.....	733	Most successful operators are practical mining men	487	Tipton, J. H. Working knowledge needed more than "blue" vocabulary....	379
Davies, William J. Age and experience vs. youth	112	Long, Howard. Discipline can be maintained on idle and work days alike	485	Trammell, Mell, E. Good living conditions are a real incentive	434
Deaderick, W. F. Above all, keep good will	546	Education plus penalties yields larger amount of clean coal.....	257	V EAZEY, V. S. Preference the best reward of greater age and experience	111
Dickinson, Earl W. Good bosses insure clean coal	258	Flat wages cause indifference in conduct of mine labor.....	634	Vincent, B. S. Determination of labor needs is key to low mine cost....	486
Dixon, Cal. Young men are responsible for high labor turnover.....	193	Good wages will lessen heavy turnover in labor	378	W ARNER, W. E. Ask the manufacturer's aid in the training of operatives	379
E DWARDS, GEO. Old-man values proved in an actual comparison.....	193	Know-it-all costly addition to company payroll	320	Coal preparation must begin at the mine working face	321
Roof control is accomplished by pulling thick pillars clean	733	Loscalzo, David A. Pillar rides best handled by avoiding them altogether	734	Men must earn the right to regular employment	434
Super is a real salesman if he puts over his idea	681	Engineers rely on prints and don't see everything	734	Particular jobs need analysis.....	433
F ARMER, C. H. Why complicate matters?	51	Luxton, W. H. Compensation for labor needs immediate adjustment	634	Willey, Charles H. Decries coercion of worker by causing worry at home	681
Fuettner, C. J. Let adherence to standards fix upkeep responsibility	545	Lyke, W. J. Teach safety in the home....	735	Flat rates dull initiative.....	633
G ANDY, VICTOR G. Age brings reliability	109	More and shorter shifts will help mechanization	52	Provide technical literature for the foreman in training	319
Balance day-work crews and costs will be nominal	487	Officials should obey law as an example to workers	682	When rendering decision always give an explanation	546
Employment of a motor boss will iron out troubles	193	Responsibility for dirty coal rests with mine management	259		
G. M. B. Jim's idea on multi-shifting cannot be used at present.....	51	M cCOY, H. A. Certain fundamental rules govern coal preparation	258		
		Efficient organization has adequate reserve man power	191		
		Fitting the man to the job is the most important factor	109
